MY STAY IN SLOVAKIA

I arrived Wien by a flight with the company Austrian Airways. The flight was suprisingly good and on time. We took the bus to Bratislava and the bus driver had some trobule parking by the hotel. We stayed at Ibis hotel in the centrum of Bratislava, from there we had a 15 minute walk to the school. I really liked the food throughtout the stay and it was very varied. I liked the teachers and the school. It looked really good after the reconstruction.

When i was in Bratislava i liked the sightseeing we did. The trip with the guides from school was really interesting, aswell as looking at the castles. I really liked the hospitality in the country, everyone treated me like a slovak and not a tourist and i really liked it.

Something bad about the hotel is that there are bedbugs in some of the rooms, that caused some troubles for some students and we all had to check our luggage when we got home.

All in all i really liked the trip and found it very fun and interesting. As soon as i could i took the chance to join this project and it was worth it.

What did I like the most...
Meeting nice slovak people and hanging out with them!

The most interesting was...
Visiting the castles for sure. I havent really visited any castles before so it was a new experience for me.

The biggest difference was/is...
The climate. In Norway it was freezing cold, but in Slovakia it was rather warm considering it was autmn.

The biggest surprise was…
How well developed the country is compared to what i expected. To be honest i hadn't really heard to much about Slovakia and i figured it would be less developed than it is.
