MY STAY IN NORWAY

What I liked the most...
I enjoyed my whole stay in Norway. I really liked the country and nature, Norwegian people were really sweet. I adored the weather, the hotel services and also the hotel's food was great. The school was gorgeous, students and also teachers were very kind and friendly.

The most interesting was...
Witnessing in person the Norwegian culture and country.

The biggest difference is...
There are obviously many differences between Norway and Slovakia. The political system, education, customs....

The biggest surprise was…
The biggest surprise for me was the long-lasting daylight. But a change for a while was fun, especially the long night walks in the city.

To be honest, three months ago I did not even hope to participate in this project. Now I am glad that I experienced this trip and have seen Norway.

After long journey from Bratislava through Prague and Oslo we finally arrived. I was glad that we ended up in really nice hotel in Drammen. Despite being tired, we were so excited that we went out for a walk in the very late evening (perhaps at the midnight).
In next days we visited the Fjords, underground mine and multiple galleries and also very beautiful Oslo. But we have just started, next was the visit to St. Hallvard school.

On Tuesday we took a bus and went towards St. Hallvard and its students. We heard that Norwegians aren't very outgoing and friendly, but fortunately, St. Hallvard students haven’t confirmed this myth. We all became friends very quickly. After that a large number of students came to play bowling with us which was super fun.

Thanks to this BraDraShip project I have gathered lot of new experience. I have met many new people from Norway but also new students from my school attending different classes. I have seen beautiful Norwegian nature, culture and cities. Furthermore I also tasted delicious traditional culinary specialities and have improved my English greatly.

I hope that Norwegian students have also learnt something new about Slovakia and our people because there is still huge number of people who think that Slovakia and Slovenia is the same country.

In conclusion I am grateful I could participate in this BraDraship project, so I want to thank all Norwegians who have made this trip for us much more comfortable and jolly :)
