MY STAY IN NORWAY

What did I like the most...
I liked the most the School Equipment. Dance class - beautiful new hall, musical class - keyboard in all of the tables... Interior of the school was really incredible.

The most interesting was...
The way how people act, how much they was different from us, for example in acting to foreigners.

The biggest difference was/is...
In school equipment, in types of lessons and how big the school was. Also big difference was in nature, fresh air and how the city (Oslo) looked like.

The biggest surprise was…
How blond everyone in Norway is (just fun :)) The biggest surprise for me was probably the nature. I was expecting that the nature would be beautiful but I didn´t expect that also in city would be beautiful nature. Also surprising was the time of sunset for me. I was surprised that I thought that it is about 5pm and it was 11pm. Anyway I loved it.

My name is Magdalena Kejstova and I am a student from The Secondary Grammar School named Gamca in Bratislava. The first thing I want to say is that I am really happy that I could be the part of this program. The Norway is like my dream place. The incredibly lovely nature!

But well... I shouldn't be talking about nature but about the program. So... what this program gave to me? I have got to know a different culture. Most of Norwegians are different from Slovakians in their behavior. All of them are proud of their state. A lot of them don't want to leave the state for university and also for their whole life. It's really different from Slovakians. A lot of Slovakians who are living in Bratislava want to leave Slovakia and study in for example Czech republic, Austria or even England, Denmark. I'm sad that we have not met the students who are studying science because I think we could have more in common that we have with musicians, but musicians were more friendly (that's what they told us) and they are more communicative (that is also something what they told us :D).

Whole time in Norway has passed really fast. I have met a lot of new people and made some new friends, so I have so much fun there. I have improved my English and I have seen beautiful nature but I know that northerly is even more beautiful.

The last thing what I want to say is, that I was amazed of the concert that musicians have showed to us in the last day. I really enjoyed it! I want to thanks for the opportunity that was given to me. I hope I will visit Norway again someday.
