MY STAY IN NORWAY

What did I like the most...
I liked the most the nature even though we did not spend much time there. It is beautiful and really different from Slovak one. I want to return to Norway for a longer period and spend the whole time in the nature

The most interesting was concert prepared by St. Hallvard music class for us. It was fantastic and it overcame my expectations.

The biggest difference was...
I have found the biggest difference in exams. The exams in Norway are much harder and I can't imagine, that I would be writing my exams in front of the whole school.

The biggest surprise for me was the price of food in Norway. Some things were even four or five times more expensive than in Slovakia.

Our staying in Norway began with a sightseeing tour. We saw a little bit of Norwegian beautiful nature, The Konsberg Silver Mine and Oslo. The highlights of our Oslo trip were the Holmenkolen Ski Jump with a breath taking view from the top of it and seeing of The Oslo Opera House.

On the third day of our staying we started attending the school. At first we presented our school to Norwegian students. We presented our after-school activity "Gamča Olympic Games" too. Norwegian students also had some presentation about their school. After this beginning we had workshops. These workshops have been continuing till the Thursday afternoon. For every workshop we have met another class so we knew lot of Norwegian students. We were describing and comparing our folklore, national traditions and food in one workshop. This was my favourite one. In other workshops we were talking about politics, democratic systems, history and many other things.

My second favourite workshop was the Math one. It was interesting to talk about Math in English. I love Math and I want to study it at university in a foreign country. After this workshop I realized, that I have zero knowledge of math vocabulary and it is necessary to change it.

Undoubtedly I want to return to Norway someday. At least to see the nature, but I think that Norway is interesting country and it is worth to spend some time there.
