MY STAY IN NORWAY

What did I like the most...

I liked the most, that in Drammen everywhere we went there was water (river, sea, …). I like sitting near water, so it was great. I could just get out of hotel and sit near water and watch it.

The most interesting was...

I didn't know till my visit, that I can see the difference in colour of nature. In Norway I could see it, and I found it very interesting. The trees have more shades of green than in Slovakia. I couldn't let my mind and eyes of it.

The biggest difference was/is...

was that everything was perfectly clean. In Slovakia when I walk through town it is louder and dirtier. It is still clean, but you can find some imperfections there. I kinda like that not-so-clean part.

The biggest surprise was…

Sunlight. It was the biggest surprise for me. I knew that in time when we came, it would be 'day' for a long time, but the shine suprised me anyway. I liked it, how in my homecountry it would be dark outside and in Norway we could still be outside because of the light.

I was really looking forward to this trip, because I wanted to see another culture, nature and much more. I wasn't disapointed.

First day we walked through Drammen. I was surprised how just a few people were outside. There are much more people outside on Saturday in Slovakia. Another day we went on trip to Oslo, which was nice too. We saw some great buildings and a different city comparing to Bratislava. I really enjoyed it.

Then we came to school. I have learned a lot. I am a shy person, but suprisingly it was not a problem for me to talk and discuss things during workshops, so I became less shy.

All workshops were very interesting, some of them more, some of them less. I liked the culture workshop and the one with historical timeline. In the culture workshop it was mostly the food-tasting that I enjoyed, because I like tasting new food, and this was delicious, so I have even bought some home. About that timeline workshop, I really enjoyed it. It was like a trip through history. It was a pity, that we had so little time for preparation. Anyway it was fun searching for all information, discovering about Norwegian history, even making boats and all the talking with Norwegian students.

One of the most enjoyable things was the concert. It was great to see, that it can be made another way than just playing music, but with some story in it. I think it was great idea to make it like a plane flight. I'm also a student of music school (which I attend in my free time) and we have concerts, so it gave me a great idea to do something like that too.

I'm very happy that I had an oppurtunity to stay some time in Norway, it gave me a lot – improvement in my English speaking skills, less shy nature and lots of memories.
